OUTPATIENT SUBSTANCE USE PROGRAMS

ABOUT US

Our mission at Little Gerald Services is to provide an intensive, safe, and therapeutic structure for our clients by educating them through effective skill-building strategies. Our philosophy is based on the importance of structure, support, and understanding, along with establishing a strong sense of security for them.

OUR SERVICES

Substance Use Counseling

Professional counseling services by licensed professional clinicians for youth and adults with substance use challenges. Three types of counseling include:

Individual Therapy - Meetings with a clinician to learn skills to deal with problems and symptoms.

Family Therapy - Meeting with a clinician to teach the family skills to help deal with issues.

Group Therapy - A group of people with similar issues meeting with a clinician. Helpful for those dealing with substance use or social disorders.

Substance Abuse Intensive Outpatient Program

Individual, family, or group counseling. Designed to reduce symptoms and substance use.

Substance Abuse Comprehensive Outpatient Treatment

Structured treatment of substance use issues. Focus is on dealing with relapse and crisis, work habits, community support, and relationships. Intended to reduce or end substance use through drug tests, counseling, and skill building. Service includes individual, group, and family therapy and education.

Opioid Treatment

A treatment using approved medications to reduce opioid use. Intended to be used with other substance use treatments.

DWI Services

We provide substance abuse assessments and treatment for DWI Offenders.

Comprehensive Clinical Assessments

Meeting with a clinician to discuss current and past issues, personal and family life, and strengths and needs. Used to diagnose the individual and create a treatment plan for services and supports.
